

## Spring Changes

Flowers start to bloom  
babies are being born  
the eggs were hidden by whom?  
and a squirrel uncovers an acorn

birds are chirping  
they sing a beautiful song  
children are laughing  
everyone gets along

new beginnings in the air  
the sun touches your skin with warmth  
the wind blows in your hair  
the cold goes north

everything looks so green  
it's becoming very grassy  
Spring is the time to clean  
This season is all bright and happy

Although it is sad  
spring fades away  
but summer isn't bad  
if you like a hot day
